Monday evening was the time for regular meeting of Village Council, but as some members were absent and very little business on hand a meeting was not held.

The village streets would look a good deal better if the big hardbuds and other weeds were cut down. The council ought to see to it and not let all these foul weeds go to seed.

The L.O.O.F. Band went with an excursion from Madoc, per steamer "Hero," to Prince of Wales Island, last week.

About 300 excursionists, and a very enjoyable time was spent.

Wilson, M.A., recently of this village, was awarded Honor Certificate in first class for Music. Miss Wilson passed her examination just before leaving here, and we are pleased to note her success.

It has been said that some parties in Marmora fall from the yacht "Helen," and that recently a large number of these were caught in a short time. We understand that it is strictly against the law to fish in such a vessel or steamer.

The Inspector has been made acquainted with the fish in such a vessel, and we are pleased to note her success.

While we have had frequent showers in this section, yet complaints come from places not far distant, of drought. In Prince Edward, the crops are said to have suffered severely. Also on this side the Bay, between Belleville and Napane. On the front of Sidney, and near the front of the Bay for the past four weeks, and grain and other crops are suffering severely.

Mr. J. H. Bush has been appointed town agent for the Canadian Pacific Railway, and is a large or small sum of money to find that the money order system is better and safer than any other way, and is fast becoming the most popular method of remitting money to the United States, and Canada as well. Mr. Bush has his office in P. T. Ward's store.

He thanks pleasure in acknowledging with thanks the receipt of a number of letters from Mrs. Ira Williams. Besides other interesting material the papers contain long accounts of the death of the late Mr. Stanford, one of California's wealthiest and noblest men. Some years ago he founded a college, and gave it the magnificent endowment of \$20,000,000. At his death he left an estate valued at a conservative estimate at \$40,000,000, and a considerable part of this is going to educational and benevolent purposes.

There is to be a great gathering of Orangemen and a grand celebration at Frankford on the 12th of July.

The following is from the *Intelligencer* of Tuesday:—"Peterborough is scheduled to play cricket with Belleville to-morrow, but they will default, giving Belleville the championship of the district and the League emblem. Belleville had better wait a while before they claim the honors of this district, as four matches are scheduled to be played at this season in the district. They might possibly have to play off a tie."

We regret to learn of the financial trouble of Thompson Bros., of Prescott, and well known in this vicinity. A despatch to the Montreal Star, dated July 3rd, says:—"There is intense excitement among cheese dealers throughout the Brockville district. The assignment of Thompson Bros., buyers of Prescott, has created considerable alarm among salesmen. The extent of their liabilities are not yet known, but it is estimated that the amount at \$70,000. We have not as yet learned further particulars, but hope the failure may be as bad as reported, and that they may soon be able to resume business again."

On Saturday last, while fishing on the River Trent, C. J. Boldrick and C. H. Green went over the rapids at Glen Rose, in a punt, and narrowly escaped being killed. After a hard swim of considerable distance, they both reached shore, completely exhausted. The boat was taken two miles down the river by the current, and there towed in by a couple of fishermen. If they had not been good swimmers, the chances are both would have been drowned, as the current extends over two miles down the river, among large rocks.

Boaters are never without a button with the shank off. Long tongue, short hand. Great talkers, little doers. Dogs that bark more than run away when it is time to bite. The least pig squeals the most. It is not the hen that cackles most that lays the most eggs. Saying and doing are two different things. Dreams sound good because there is nothing in them. Good men know themselves too well to chant their own praises. Good cheese sells itself without puffery; and when men are really excellent, people find it out without telling. Bounce is a sign of folly. If a man is ignorant and holds his tongue, no one will be the wiser. A man on an empty pike, and a tongue that brags, he will write out his own name in capital letters, and they will be these F. O. O. L.

Dr. Alex. Hall, dentist, lately of Belleville, N. Y., has been honored by being elected General Demonstrator in the dental department of the Ohio University, of Columbus, Ohio, for the year beginning Sept. 13, 1893, receiving the position over a number of competitors. We congratulate our former, now esteemed citizen on his elevation to the position above mentioned and there is not a doubt but that he will honorably occupy the position as Demonstrator in the Dental Department of the Ohio University in America. A graduate as Doctor of Dental Surgery of Cincinnati, he found it required a tedious course, as well as very expensive, to qualify for a license as a Provincial College of Dental Surgeons. When here he was prosecuted by those whose ability as dentists was, as the public thought, not to be compared to that possessed by the persecuted. Threats of further prosecutions were made, and no chance was offered him in any position, as a Dentist, in which he could not be fined. The result is that this locality has lost one of its most amiable and useful citizens, and his influence and success of this young professor will attract many of his friends and aspirants for Dental Certificates to the school of which he is an official.

**Death of Hiram Conley.**

The community were startled on Sunday last to hear of the death of Hiram Conley, from heart failure, after a very brief illness. He was in the village on Friday, apparently in good health, and on Saturday morning helped in milking the cows, as usual, but during the day complained of not being well, and kept getting worse, notwithstanding the efforts of two physicians, Drs. Faulkner and Meiklejohn, until death took place at about four o'clock on Sunday afternoon.

Mr. Conley was well known in this village and vicinity, having a fine farm about two miles from the village, in the township of Rawdon. He was the son of Geo. Conley, Esq., who still lives in Rawdon, and was for some time a member of the village, and a brother, Philip and Geo. H. Conley are residents of the village. He leaves a wife and one child, a young son, who is now mourning their loss, and they have the sympathy of the community in their affliction.

The funeral services were held on Tuesday last, was very largely attended, service being held in the Methodist Church here.

Come hither, my heart's darling, Come sit upon my knee, And listen, while I whisper A boon I ask of thee.

I feel a bitter craving— That links me to thee and mine; I know my soul's emotion Is fondly felt by thine.

Nay, dearest, do not mock me, Though manly thou I speak, Thy thoughts are my cheek.

I know the sweet devotion, That links me to thee and mine; I know my soul's emotion Is fondly felt by thine.

And don't you think a shadow Has fallen across my love? No, sweet, my love is as before, As yonder lilies above.

Oh, then, do not deny me, My first and fond request; I pray thee, by the memory Of all we cherish best!

By that gift which bound thee Forever to my side, And by the ring that made thee My darling and my bride—

Thou wilt not fail or falter, But heed that to the task; For I have seen thee, in two days, That all the boon I ask.

GOOD NEWS!

Notwithstanding the late spring, I am glad to hear that the prospects for a bountiful harvest are good.

I am also pleased to announce that the business for the Ontario Mutual Life Assurance Company up to the present time this year, is far ahead of what it was in the same time last year showing that the people appreciate a good thing in life insurance when it is offered them. The ranks are not all filled up and I have lots of room for more people.
